How to read this table: If a child started school in Std I at age 6, she should be of age 8 in Std III. This table shows the age distribution for each class. For example, in Std III, 61.1% children are 8 years old but there are also 12.3% who are 7, 23.2% who are 9, and 3.1% who are older.

Chart 3: Trends over time % Children age 3, 4 and 5 not enrolled in school or pre-school 2006-2014\*

\* Data for 2011 is not comparable to other years and therefore not included here

Data has not been presented where sample size was insufficient.

| VII   | 0.0   | 0.8    | 4.7  | 11.7                    | 82.7                     | 100   |  |  |  |  |  |  |
| VIII  | 0.6   | 0.7    | 2.6  | 7.6                     | 88.6                     | 100   |  |  |  |  |  |  |
| Total | 3.3   | 7.8    | 17.4 | 17.0                    | 54.6                     | 100   |  |  |  |  |  |  |

How to read this table: Each cell shows the highest level in reading achieved by a child. For example, in Std III, 4.5% children cannot even read letters, 7.4% can read letters but not more, 23% can read words but not Std I level text or higher, 26% can read Std I level text but not Std II level text, and 39.1% can read Std II level text. For each class, the total of all these exclusive categories is 100%.

\* This is the weighted average for children in government and private schools only.

To interpret the chart at left (Chart 4), several things need to be kept in mind:

First, in ASER, all children are assessed using the same tool. The highest level on this tool is the ability to read a Std II level text. ASER is a "floor" level test. It does not assess children using grade level tools. At the highest level, what ASER can tell us is whether a child can read at least Std II level texts or not.

Based on this tool, we can see that proportion of children who can read Std II level text increases as they go to higher classes. By Std VIII children have completed eight years of schooling and by this stage a very high proportion of children are able to read text at least at Std II level. This is true for every year for which data is shown. It is possible that some children are reading at higher levels too but ASER reading tests do not assess higher than Std II level.

However, what is also worth noting is how children at a given grade are doing in successive years. For example, this chart allows us to compare the proportion of children able to read Std II level texts in Std V for cohorts that were in Std V in 2010, 2012 and 2014. Data has not been presented where sample size was insufficient.

#### Arithmetic

|       | Table 7: % Children by class and ARITHMETIC level           All schools 2014 |                  |                  |                 |               |       |  |  |  |  |  |
|-------|--|------------------|------------------|-----------------|---------------|-------|--|--|--|--|--|
| Std   | Not even<br>1-9  | Recognize<br>1-9 | numbers<br>10-99 | Can<br>subtract | Can<br>divide | Total |  |  |  |  |  |
| Ι     | 10.1   | 24.7             | 61.3             | 3.0             | 0.9           | 100   |  |  |  |  |  |
| -     | 5.6  | 5.3              | 66.7             | 21.2            | 1.2           | 100   |  |  |  |  |  |
|       | 3.0  | 5.3              | 45.9             | 36.8            | 9.0           | 100   |  |  |  |  |  |
| IV    | 1.6  | 1.9              | 40.0             | 35.7            | 20.8          | 100   |  |  |  |  |  |
| V     | 0.8  | 1.3              | 26.6             | 32.3            | 39.1          | 100   |  |  |  |  |  |
| VI    | 0.4  | 2.6              | 23.6             | 30.6            | 42.9          | 100   |  |  |  |  |  |
| VII   | 0.1  | 0.5              | 18.5             | 28.3            | 52.7          | 100   |  |  |  |  |  |
| VIII  | 0.6  | 0.3              | 15.8             | 23.9            | 59.5          | 100   |  |  |  |  |  |
| Total | 2.7  | 5.1              | 37.0             | 26.4            | 28.7          | 100   |  |  |  |  |  |

How to read this table: Each cell shows the highest level in arithmetic achieved by a child. For example, in Std III, 3% children cannot even recognize numbers 1-9, 5.3% can recognize numbers up to 9 but not more, 45.9% can congrize numbers up to 99 but cannot do subtraction, 36.8% can do subtraction but cannot do division, and 9% can do division. For each class, the total of all these exclusive categories is 100%.

\* This is the weighted average for children in government and private schools only.

To interpret the chart at left (Chart 5), several things need to be kept in mind:

First, in ASER, all children are assessed using the same tool. The highest level on this tool is the ability to do a numerical division problem (dividing a three digit number by a one digit number). In most states in India, children are expected to do such computations by Std III or Std IV. ASER is a "floor" level test. It does not assess children using grade level tools. At the highest level, what ASER can tell us is whether a child can do at least this kind of division problem.

Based on this tool, we can see that proportion of children who can do this level of division increases as they go to higher classes. By Std VIII children have completed eight years of schooling and by this stage a substantial proportion of children are able to do division problems at this level. This is true for every year for which data is shown. It is possible that some children are able to do operations at higher levels too but ASER arithmetic tests do not assess higher than this level.

However, what is also worth noting is how children at a given grade are doing in successive years. For example, this chart allows us to compare the proportion of children able to do division at this level in Std V for cohorts that were in Std V in 2010, 2012 and 2014.

Annual Status of Education Report

Data has not been presented where sample size was insufficient.

### **Reading and comprehension in English**

| Total   | 4.4                            | 5.0                | 10.8             | 22.5            | 57.3              | 100   |  |  |  |

How to read this table: Each cell shows the highest level in reading English achieved by a child. For example, in Std III, 6.6% children cannot even read capital letters, 5.3% can read capital letters but not more, 12.4% can read small letters but not words or higher, 27.1% can read words but not sentences, and 48.5% can read sentences. For each class, the total of all these exclusive categories is 100%.

### Type of school and paid additional tuition classes (tutoring)

The ASER survey recorded information about paid additional private tutoring by asking the following question: "Does the child take any paid tuition class currently?" Therefore the numbers given below do not include any unpaid supplemental help in learning that the child may have received.

| Table 12: Trends over time<br>% Children in Std I-V and Std VI-VIII by school type and<br>TUITION 2011-2014 |                  |      |      |      |      |  |  |  |  |

## ANALYSIS BASED ON DATA FROM GOVERNMENT SCHOOLS. 12 OUT OF 14 DISTRICTS Data has not been presented where sample size was insufficient.

### **School observations**

In each sampled village, the largest government school with primary sections is visited on the day of the survey. Information about schools in this report is based on these visits.

| Table 14: Number of schools visited 2010-2014 |      |      |      |      |      |  |  |  |  |

Note for Table 18 & 19: Grant information was not collected in ASER 2013.

#### Table 20: % Schools carrying out different activities since April 2013

|                 |   |      | % School | S             |
|-----------------|---|------|----------|---------------|
| Type of activit | у   | Yes  | No       | Don't<br>know |
| Construction    | New classroom built                       | 16.5 | 82.3     | 1.2           |
|                 | White wash/plastering                     | 67.7 | 31.5     | 0.8           |
| Repair          | Repair of drinking water facility         | 58.9 | 39.1     | 2.0           |
|                 | Repair of toilet                          | 57.6 | 39.2     | 3.3           |
| Purchase        | Mats, Tat patti etc.                      | 32.6 | 63.0     | 4.4           |
| Fulchase        | Charts, globes or other teaching material | 76.7 | 21.0     | 2.3           |

#### Table 22: School Management Committee (SMC) in schools 2014

| % Schools which said they have an SMC   | 99.2 |  |
|---|------|--|
| Of the schools that have SMC, % schools that had the last SMC meeting                         |      |  |
| Before Jan 2014   | 0.0  |  |
| Jan to June 2014  | 1.2  |  |
| July to Sept 2014   | 23.2 |  |
| After Sept 2014   | 75.6 |  |
| % Schools that could give information about how many members were present in the last meeting | 93.3 |  |
| Average number of members present in last meeting   | 18   |  |

Every year schools in India receive three financial grants. This is the only money over which schools have any expenditure discretion. Since 2009, ASER has been tracking whether this money reaches schools.

ual Status of Education Report

212

| Name of Grant                       | Type of activity  |
|-------------------------------------|---|
| School<br>Maintenance<br>Grant      | For minor repairs and<br>infrastructure maintenance.<br>Eg. Repair of toilet,<br>boundary wall,<br>whitewashing |
| School<br>Development<br>Grant      | For purchasing school and<br>office equipment.<br>Eg. Blackboards,<br>sitting mats, chalks, duster              |
| Teacher Learning<br>Material Grant* | For purchasing teaching aids  |

\* In 2013-14 and 2014-15 Government of India stopped sending money for this grant in most states.

## Table 21: Continuous and Comprehensive Evaluation (CCE) in schools 2013-2014

| CCE in schools  | 2013 | 2014 |
|---|------|------|
| % Schools which said they have<br>heard of CCE  | 98.9 | 98.8 |
| Of the schools which have heard of CCE, % schools which have received materials/manuals |      |      |
| For all teachers  | 74.8 | 79.8 |
| For some teachers   | 13.5 | 10.9 |
| For no teachers   | 11.3 | 6.9  |
| Don't know  | 0.4  | 2.4  |
| Of the schools which have<br>received manual, % schools<br>which could show it          | 75.4 | 63.5 |

## Chart 6: School Development Plan (SDP) in schools 2014

% Schools which reported not having an SDP for 2013-14

% Schools which reported having an SDP for 2013-14 but could not show it

• % Schools which reported having an SDP for 2013-14 and could show it
